DTI
Quality on Time

DTI Experience

For over 20 years DTI has been providing custom manufacturing of metals, plastics, and composite parts to the Pacific Northwest.

DTI's integrated Finishing Department offers a variety of different services in order to meet a wide range of industry demands.

With a team of full-time engineers on staff, and an in-house product support system, DTI can support almost all your finishing needs whether large or small.

Chromate conversion - clear

Service Counts

All DTI customers are assigned an experienced Program Manager. It is the Program Manager's responsibility to act as an extension of our customer, providing a single point of contact, a constant line of communication and to insure your project objectives are met.

The Program Manager can insure DTI's full range of capabilities are used to help address your specific design and manufacturing needs:

Dedicated to meeting all your Finishing requirements,

Environment & Safety

DTI regularly takes many precautions and is committed to investing in a safe and clean environment. DTI uses state of the art waste treatment and fume scrubbing equipment and abides by all local and federal safety, pollution and waste treatment laws.

The safety of our employees and consideration for the environment have always been top priorities here at DTI.

Sample colors of anodized, metallic heat sinks

By being able to support both turnkey systems and finishing services, DTI's goal is to provide your business with a one-stop source for all your finishing and manufacturing needs.
